

## Gated Solutions

Dear Mr/ Mrs

TouchNet Telecommunications gated solutions division provides a network infrastructure to gated communities, residential complexes, estates and commercial establishments. The installation of this solution provides the residents with cost effective uncapped internet access within the estate-which can be billed as part of the levy.

We utilise the latest fibre optics and /or wireless technology available in order to provide an estate with the best coverage, which enables roaming and mobile connectivity for residents within the estate.

Due to the dynamic nature of the system it can be integrated with wireless IP based cameras and other IP based systems, such as an electronic bulletin board, VoIP and VOD / IPTV systems.  
A Service Level Agreement (SLA) allows for regular quality control and site visits is included in the contract.

**TouchNet Telecommunications** has partnered with **ALTECH Tech Concept and MTN Business** , a leading first-tier Internet Service Provider (ISP), to offer an exceptional internet experience with ultra fast 1:1 ratio, uncapped and unshaped bandwidth dedicated to the estate.

Increased property Value, Cost effective, 1:1 Unshaped bandwidth, Ultra Fast Uncapped bandwidth, 99.5% Uptime, Customised installations for any size complex, Wireless connectivity & Mobility, QOS, Secure User Authentication, Remote System Monitoring, VOIP capable, Online IPTV / VOD, Quality Outdoor Equipment, Reporting on Demand, Support provided by a dedicated team of IT specialists

We see the advantages that the above services and facilities can bring to new developments. Should you require any further information you can contact TouchNet Telecommunications directly on 086 112 7677 or [Charly@TouchNet.co.za](mailto:Charly@TouchNet.co.za).

Kind Regards  
Charly Bahous
